# Mission and Vision

Every member of IUHW Mita Hospital sincerely delivers high standard medical service as well as warm and comfortable care based on the following five missions:

## 1. We provide high quality medical services.

Quality assurance is an essential element in medical services. We make efforts to always keep delivering the highest level of medical services.

## 2. We respect rights of patients.

We respect the dignity and privacy of patients. We also strictly protect personal information.

## 3. We provide sufficient explanation to patients.

We provide patients with sufficient explanation about their health condition in an easy-to-understand manner for them to receive medical services convincingly.

## 4. We respect the patients' rights of self-determination.

We make efforts to provide sufficient information and knowledge so that the patient can make one's own decision to the therapeutic options.

## 5. We protect patients' QOL.

We guarantee patients' QOL in the hospital through providing quiet and comfortable environment so that they can concentrate on treatment without worries.
